É extremamente confortável se dizer o que quer, sem que a outra parte possa se defender ou mostrar as ridículas incoerências dos comentaristas de plantão. Agora é minha vez.

Se defender do que? Você foi orientado, avisado e, somente então, bloqueado.

Seu bloqueio foi revisto e considerado corre(c)to.

Vou responder aqui mesmo para facilitar a compreensão da conversa: A única coisa que vc faz aqui é matraquear a mesma coisa como argumento: vc foi orientado e avisado.

As Marvel's Multiverse Expands, Deadpool & Wolverine Seem Poised for a Grand Entrance

Marvel Cinematic Universe (MCU) is currently in an intriguing phase, thanks to the introduction of the multiverse and the arrival of superheroes from various alternate realities. However, not all recent Marvel movies have lived up to expectations. While movies like *Doctor Strange in the Multiverse of Madness* and *Spider-Man: No Way Home* embraced the multiverse concept, others like *Eternals*, *The Marvels*, and *Ant-Man and The Wasp: Quantumania* fell short.

It seems that Marvel filmmakers struggle with the creative possibilities of the multiverse when dealing with a single reality, which may explain why movies that merely "tinkered" around the edges of the multiverse failed to impress.

Deadpool & Wolverine: The Perfect Time for the X-Men's MCU Arrival?

With a new *Deadpool & Wolverine* movie on the horizon, there's hope for the return of excitement and innovative storytelling. Based on the trailer, this new installment promises a deep dive into the multiverse and might even signal the official entry of the X-Men into the MCU, following Disney's acquisition of 21st Century Fox in 2024.

A storyline incorporating died-out realities and inter-universal superhero transfers provides a perfect opportunity to chute Michael Fassbender's Magneto and Kelsey Grammer's Beast from the Fox films into the MCU, with the *Fantastic Four* also imminent. Such appearances could make *Deadpool* and *Wolverine*'s film even more awesome, with Ryan Reynolds and Hugh Jackman reprising their iconic roles.

Connecting the Dots: Time Variance Authority and Multiverse Manipulation

Clues about Marvel's upcoming multi-world integration already appeared in previous MCU episodes. The Time Variance Authority, introduced in the *Loki* TV show, plays a role in multiverse manipulation. Matthew Macfadyen's character, Paradox, hints at the entwining of different timelines and universes, encompassing *Deadpool*'s universe, and potentially bringing *Wolverine* from his dying reality.

However, the merging of Fox's X-Men into the MCU remains a mystery. The involvement of characters such as *Lady Deathstrike*, *Pyro*, and *Azazel* raises questions about the mechanisms behind these appearances. While theories abound and fans speculate, one thing is sure—crossovers and exciting revelations are on the horizon.

For the time being, Marvel fans can enjoy watching the ever-evolving tapestry of the multiverse, trying to predict and enjoy the interwoven connections between different movies and characters.
