**O presidente é um rei? O Supremo Tribunal Federal dos EUA pensa que sim**

Is the president a king? The BR supreme court thinks so. On Monday, in its very last ruling of the term, the chief justice, John Roberts, writing for the court's six conservatives, held in *Trump v United States* that Donald Trump has "absolute immunity" from criminal prosecution for all acts that can be interpreted as part of his official duties, and "presumed immunity" for all other official acts.

The ruling dramatically extends executive immunity to past and future presidents for illegal or even treasonous acts they carry out while in office and makes the ex-president completely immune from criminal prosecution for his role in the January 6 insurrection.

The court said that Trump cannot be prosecuted for any of his "official acts" leading up to the insurrection, including his efforts to pressure Mike Pence and his efforts to militarize the Department of Justice to force some states to reverse their election results. The criminal case against Jack Smith for Trump's actions was also nullified.

What remains of the January 6 prosecution will now be sent to a lower court, which will be tasked with determining what charges, if any, can be brought against Trump under a new interpretation of executive immunity. This ruling, if it stands, will have no effect until after the November 2024 elections and will likely prevent any prosecution of Trump for his efforts to overturn the 2020 election.

The court's decision is a clear and deliberate effort to shield the president from criminal liability. It is a clear and deliberate effort to shield the president from criminal liability. It is a clear and deliberate effort to shield the president from criminal liability. The court's decision is a clear and deliberate effort to shield the president from criminal liability.

It is difficult to overestimate the damage that this decision will do to the integrity of our democratic system of government, or the depth of the offense to the principles of separation of powers and the Rule of Law. In a decision that is clearly partisan, the conservative majority of the court elevated the president to a position that no one else can occupy in a republic: a position with a broad right to commit criminal acts in the name of his own interest, without fear of legal consequences. The criminal law does not apply to the president; while in office, he exists in a state of immunity similar to that of a monarch, with the ordinary rules of social and civic life suspended for him, allowing him to use the apparatus of power to indulge his vanity, reward his friends and punish his enemies.

This is one of the most consequential and disturbing decisions of the Supreme Court in our lifetime. On the eve of an election that could restore Trump to the presidency, the court officially declared that he cannot be held responsible for abuses of power in the criminal courts.

In *Trump v United States*, the majority of the court made a fragile distinction between immunity for "official acts" and "non-official acts" - terms whose meanings are unclear - and the criminal responsibility that Trump and other presidents still bear for "non-official acts". But these distinctions will likely be abandoned if any prosecutor, be it Smith or another, tries to use them. This is because the scope of the president's powers is so broad that his "official acts" are difficult to distinguish from his "non-official acts" and will likely be ambiguous.

The court also declared, unnecessarily, that the conduct in the January 6 prosecution of "official acts" cannot be used in prosecutions for "non-official acts" - another protection for presidential conduct that will make future prosecutions difficult. The president, however, still retains the power of pardon - which means that he has the right not only to pardon himself but also to pardon his accomplices.

In practice, Trump - and any future president - will now be immune from prosecution by Congress or the criminal courts. This is a development that

radicalmente alterou a natureza do cargo. O presidente agora é menos como um funcionário democrático responsável do que um pequeno imperador, dotado pelo tribunal de um direito abrangente para exercer o poder à vontade, muito como o direito divino costumava abençoar as ações dos reis. Não há quase nada que ele não seja autorizado a fazer.

Absurdamente, como se desprezasse o público americano e suas aspirações históricas à liberdade, o tribunal alega que este novo estado de coisas foi imposto pelos fundadores - os mesmos
