What We Do

Slot Tracker is a tool that tracks your spins. But what does that mean? It means that all data related to every single spin you make is collected and turned into statistics: RTP, profits, loss, you name it.

But really, it's more than that. It is the community of players that make this revolutionary concept possible, and the people that work on the tool day in, day out, guided by our values, achievements, history, and mission.

The Slot Tracker Timeline

2024

Bonus Buy tracking is launched as a response to the rising popularity of this feature. On February the 23rd, the tool surpasses 100,000,000 spins tracked.

2024

The team reveals a new brand identity, asserting itself as an important and growing player in the iGaming landscape. As the tool widens in scope, tracking an ever-growing number of slots and casinos, the company launches a recruitment drive to grow the team.

This year, the Slot Tracker mobile app is released, and both the extension and app are published in Chrome Web Store and Google Play Store.

The number of members surpasses 12,000, all actively using the tool from a diverse range of countries. The average monthly spins exceeds 1,000,000 for the first time in the project's history.

2024

The tool is updated to version 3.0, marking a revolutionary upgrade in its architecture. All the elements (console, website, and extension) are completely rewritten from scratch.

While still in an early stage of development, the tool builds a community of 7,700 members who cumulatively track more than 13,454,000 spins. Almost 600 slots and casinos are added to the tool.

2024

The tool is updated to version 2.0, with more robust tech infrastructure, better support for every spin tracked, and more agility to adapt to changes from game providers.

Slottracker is split into four connected but uniquely valuable areas – the website, the extension, the console, and the widgets – that can cater for slot players and industry players alike.

2024

Game Lounge Ltd. begins to invest heavily in building a robust tech infrastructure for the tool. A team of developers is built and tasked with taking the project forward.

2024

Game Lounge Ltd. acquires slottracker from the US start-up Innovative Game Solutions Partnership for €1,000,000.
