The showdown in poker happens simultaneously, and the standard protocol needs to be abided by all the players present, meaning they would have to reveal their hands as quickly as possible, even if there is a probability that they would win.

The game doesn't lead up to a showdown in poker if only a single player is left by the end. This means the final player will be declared the game's winner and get to walk home with the pot. This also means the last player in the game wouldn't have to show their cards during the showdown poker. The players who have chosen to auto-muck before the showdown in poker aren't expected to show their cards either.

On the contrary, if a player loses during the showdown poker, they can choose not to show their hands by mucking them rather than revealing them to the entirety of the table. However, the other players playing the showdown poker can ask the dealer for the other hands to be shown even if the player had originally chosen to muck their hands. After the showdown poker, they can view the other players' hands in the hand history.
